Featured Workshop

Smart Grid for Schools

Illinois State University has designed the **Smart Grid for Schools Program** which lets educators' experience the new Smart Grid technology being rolled out by local utility companies. Experience these large-scale, hands-on displays for yourself, and learn how you can incorporate them into your classroom or as part of a STEM exhibition at your school. For K-12 teachers and administrators. Visit cemast.illinoisstate.edu/educators to learn more!

- Experience two Smart Grid configurations: **Interactive Display** and **Construction Set**.
- **K-12** curricula available; incorporates **Next Generation Science Standards**
- **\$200.00** stipend for attending.
- Become a certified Smart Grid Educator! Receive another **\$500** for hosting the exhibit at your school.

Presented by:

CCAS Educational Partner

Dr. Brad Christensen

STEM Instructional Designer

Center for Mathematics, Science, and Technology

(CeMaST) Illinois State University
